

# THE FAYETTE FALCON.

ESTABLISHED 1866.

SOMERVILLE, TENNESSEE, FRIDAY, JULY 18, 1919.

NEW SERIES VOL. XIII.—NO. 3

## Moscow

Our streets of late remind one of the Chicago stock yards for the reason that a number of local owners of stock allow them to run at large to feed on the grass and the neighbors' rose bushes, etc. We feel sure that a large majority of local people desire the stock law to be enforced yet no effort in that direction is being made.

The directors of the Moscow Savings Bank held their regular meeting at the bank Tuesday.

The ball game played here Friday between the single and married men was won by the former. The game was very amusing, as some of the members of the married men's club had forgotten about everything they once knew of the game and their actions created much laughter.

An ice cream party at the home of Mrs. O. P. McCandless was enjoyed by several of the younger set Tuesday night.

Ernest Hogan is now with the Cruger, Mississippi bank, where he holds a responsible position.

Miss Lucile Pearce, of Brownsville, and Miss Buford, of Somerville, were Sabbath guests of the former's mother, Mrs. J. A. Pearce.

Miss Ruth Ballou and Moneis Howell were married Sunday at the Bethlehem church by the pastor.

Miss Virginia Briggs has been visiting her cousin, Miss Bertie Wheeler.

Mr. Keith Tillman expects to move to the rooms in the Holmes Hotel which will soon be vacated by the Burdison family who will move to their new home in the eastern part of Moscow.

The local Methodist church will soon have installed an electric light plant.

The time is at hand for the people of this town to get together. There is much that could be readily done to make Moscow a cleaner, better and bigger town. Think it over and then let's devise the way and means of accomplishing the things which will add to the upbuild and uplift of the town you love.

Mrs. W. S. Ayers, of Memphis, was a guest of Mrs. W. S. Hogan and local friends Saturday.

## Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflammation of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, etc.

F. J. CHENEY & CO., Toledo, O.

## Interchurch World Movement

The Rural Survey Section of the Interchurch World Movement of North America is now at work in Tennessee, its headquarters being with the division of agricultural extension of the University of Tennessee, which is co-operating in the work to the fullest degree. The Interchurch World Movement has as its central organizing principle a thoroughgoing plan of co-operation between churches in their educational and missionary program. The first feature of the plan is a nation-wide church and community survey to ascertain what the existing conditions are, in order to have facts upon which to formulate a program. This is the part of work that is now being put into effect thru the rural survey section.

Dr. Thomas Freeman Dixon, State Supervisor of rural survey, is on the field organizing the forces that will make a sociological survey of every community in the state, and a religious survey of every church. A state survey council is being formed of men of all denominations operating in the state, with representatives of the educational institutions. This council will have entire charge of the survey work in the state.

In each county a key-man will have charge of the actual work of making the survey in his county and will have associated with him persons representing the various churches in the county. These will form a county survey council and will be responsible to the state council for the work in that particular county. Thus the work will all be in the hands of local people. The same plan is being put into effect in every state in the union.

## Garden Notes

Late potato planting has been in progress the past ten days. Rains have put the soil in good condition and those who have planted are pretty sure to get good stands and that is always the greatest trouble in the late potato crop. We have planted three bushels of Triumphs, three of Lookout Mountains and one of Red Rippers, and have every reason to look for a good stand of each variety. Triumphs should be planted not later than this week, while Lookout Mountains may be planted any time to August 15, with hopes of a good crop.

This is about the last call for sweet potato setting. Plants or vine cuttings put out now are counted by many as producing the very best and most uniform tubers of all and many of the best potato growers wait till July to put out their plants, claiming the potatoes are more uniform in size and better in quality.

Are you getting a patch ready for turnips? Ours has had a coating of manure after the early Irish potatoes were dug three weeks ago, and this was turned under and the ground harrowed well. It is in shape to take up the moisture of each rain and held a large part of it until a month from now when the seed will be put in the ground. Land fresh-broken and planted to turnips can hardly be expected to grow a crop except under most favorable moisture conditions. The ground should be broken and fertilized now, and thoroughly pulverized and allowed to stand until planting time, thus storing moisture for the dry months of early fall which is the real developing season for turnips.

We are still making successive plantings of corn for roasting ears and of snap beans. Will continue to plant till the middle of August. With average weather these plantings will furnish our table right up to frost.

Those who have not planted seed of cabbage and collards should do so at once if they expect to raise these crops this fall. An early variety of cabbage should be used now if one wants to be sure his fall crop will head well. Early Michigan tomatoes can be planted if done this week and have time to furnish ripe fruit before frost and green fruit for pickles and winter ripening.

Several have asked about fall crops of lettuce, beets, peas, etc. But it is a little early yet for these. Better wait till a month from now.

A crop of strawberries put out in September or October will produce a light crop next spring and a big crop the following spring. Fall has proven the best time for transplanting them in this section. Get the ground ready for September or October transplanting, owing to moisture supply at the time.

## ANNOYING KIDNEY ILLS

### Make Life Miserable for Many Somerville People

There's nothing more annoying than kidney weakness or inability to properly control the kidney secretions. Night and day alike, the sufferer is tormented and what with the burning and scalding, the attendant backache, headache and dizziness, life is indeed a burden. Doan's Kidney Pills have given peace and comfort to many Somerville people. Profit by this Somerville resident's experience.

C. P. McDowell, farmer, N. Covington street, says: "Doan's Kidney Pills are an excellent kidney remedy and I gladly recommend them to anyone suffering from kidney trouble. My kidneys were weak and I had to get up often at night to pass the secretions, which were highly colored. I had bad spells with my back and it also kept me awake at night, owing to the dull pains. I saw Doan's Kidney Pills advertised by people who had been benefited by them, and I decided to get a box at the Price Drug Co. I used Doan's as directed and they cured me of the trouble."

Price 60c at all dealers. Don't simply ask for a kidney remedy get Doan's Kidney Pills, the same that M. C. McDowell had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

## No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC gives regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or expel the worms, and the Child will be in perfect health. Pleasant to take. 50c per bottle.

## Fayette County Stock Law

Somerville just now is infested with stock running the streets as it has not been for a decade. And yet a vast majority of the people of the town want to see the law faithfully enforced and all stock kept up as the law requires.

Owners of stock should bear in mind that there is a law against stock running at large anywhere in Fayette county. This law makes the stock liable for any damage they may do to property of other people than their owners, and the owner of stock running at large is subject to indictment by the grand jury and if found guilty of letting his stock run at large is subject to a fine of \$5 to \$50. In addition to this law applying to the entire county, there is a city ordinance in Somerville which forbids stock being allowed to run on the streets of the town. Thus both the county law and the city law are being over ridden by stock owners who turn their stock out to graze the streets.

At the last term of the circuit court here there was a case of an indictment by the grand jury of a party who turned his stock out, and he submitted his case, was fined the minimum fine and paid it and the costs. This serves to show any who may be in doubt that the law is in full force and if it cannot be enforced thru local officials it can be thru the circuit court.

As a matter of fact no man wants to go before a grand jury and secure the indictment of a neighbor, but that neighbor is not showing the same degree of feeling and consideration for those living near him if he turns his stock out to roam over his premises, destroy his flowers and shrubs and trees. There is that remedy by the grand jury and circuit court way, if by no other.

There are not one dozen stock owners in Somerville who allow their stock to roam the streets, but there are very few days now that one can walk five blocks without seeing five cows on the streets or on some one's yard, or in the school yard, somewhere that it should not be and can not be lawfully. Shall the law be enforced or shall all stock be turned out on the commons? One or the other of these should be done, and all treated alike.

## Habitual Constipation Cured

"LAX-40S WITH PEPSEN" is a specially-prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but should be taken regularly for 14 to 21 days to induce regular action. It stimulates and regulates. Very Pleasant to Take. 60c per bottle.

## Dairy Farming Profitable

Dr. F. W. Smartt, of Wartrace, Tennessee, is a very enthusiastic dairyman. His milk and cream checks for the month of June amounted to \$520. He has 22 cows and gives them perfect attention. He ships the morning's milk. The night's milk is separated from which the cream is shipped. This way he finds it takes less ice than is the case where all milk is shipped. It is interesting to know that this \$520 worth of milk and cream was produced at a feed cost for purchase feed of less than \$100, leaving over \$420 which was clear profit with the exception of cost of pasture and milking the cows. The cows had good pasture and good treatment which accounts for the good results. They are high bred Jerseys in which Dr. Smartt takes much personal interest.

One cow in the herd tests over six per cent butterfat, while several test over five per cent. Dr. Smartt is a member of the Tennessee State Dairy-men's Association, and is an enthusiastic booster of dairying. He is one of the best farmers in his community and is also making a good profit from bees and White Leghorn chickens.

## LEMONS MAKE SKIN WHITE, SOFT, CLEAR

Make This Beauty Lotion For a Few Cents and See For Yourself.

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to whiten the skin and to bring out the roses the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating and should be mixed with orchard white this way. Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white then shake well and you have a whole quart of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle then this lotion will remain pure and fresh for months. When applied daily to the face, neck, arms and hands it should help to bleach, clear, and smooth and beautify the skin.

Any druggist will supply three ounces of orchard white at very little cost and the grocer has the lemons. adv

## Co-operative Poultry Shipment

Fayette county's first co-operative shipment of poultry was tried out Saturday, July 12, at Somerville. Those who have been reading the county paper have known for several weeks that such a proceeding was being undertaken and as many others as could be reached by cards and personal visits. But with much effort made to get this before the people and to enlist their co-operation, even then several were heard to say that they would have been glad to be among the shippers had they known in time to get their chickens in.

Forty-one persons sent in chickens, ranging in number from one old rooster and two spring chicks to 55 springs and a dozen hens. It is easy to see what a success this might have been had 200 or more persons sent in all surplus hens, roosters and fryers.

The poultry was sold to L. Rouch & Co., Memphis, and prices received were three and four cents above the highest local market. For springs he paid 32 cents, roosters 13 and hens 24. Other markets were even lower. We speak here of the Somerville market only, since we do not have quotations from other places in the county. Neither do we refer to prices received by peddling from house to house, since prices paid by the consumer are naturally higher than any price paid direct to the producer.

Below are given the results as a whole of the shipment:

	No.	per lb.	wt.	amt.
Roosters	94	13c	472	\$ 61.36
Spring	321	35c	5224	182.87
Hens	279	24c	1048	251.52
Duck	2	20c	5	1.00
Totals	696		2047 1/2	\$456.75

Amounts received above the highest local market:

Roosters, 472 lbs. 3c increase	\$14.16
Hens, 1048 lbs. 4c increase	41.92
Total	\$56.08

We might add that had we been able to list definitely as much as 12,000 lbs., so that the buyer would not have taken so much chance, we could have gotten at least three cents more on hens and one cent more on roosters. This goes to prove that several hundred persons can, by co-operating, command prices that cannot be gotten by one individual or even by 41 persons working together. This is not guess work. One bid was received to this effect, but the required amount of poultry had not been listed; therefore the bid could not be accepted.

We are encouraged to try this again, so keep your eyes and ears open in order that this may not slip up on you unawares. Let's all get to work raising more and better poultry, and then with "a long pull, a strong pull, and a pull altogether" we will find more profitable markets.

## PROMINENT OBION COUNTY PHYSICIAN PRAISES TRUTONA

### Dr. Richards' Indorsement Backed by 35 Years Constant Medical Practice

Kenton, Tenn., July 17.—Dr. J. Richards, 78 years old, has been a resident of this vicinity for years and he is well known and highly respected by everyone for "miles around." For the past 35 years Dr. Richards has been actively engaged in the practice of medicine here, during which time he has won the confidence of thousands of acquaintances together with the credit of being among the most prominent physicians of the county. His following personal indorsement of Trutona will give to hundreds—yes, thousands, faith in the perfect tonic, which will increase greatly upon use of the new medicine.

"Everyone knows that a man in my profession could not and would not recommend a medicine unless it was really one of merit," Dr. Richards said. "But I have tried Trutona and I know it to be a tonic of real merit."

"I've been annoyed with nervousness for several years," he continued. "My appetite was poor, too, and I found it difficult to rest well at night."

"Duty compels me to recommend the new tonic as an appetizer, a strengthener, system builder and real nerve tonic. In short, a tonic that has real medicinal merit. I hope those suffering with nervousness, loss of appetite and generally run down system will try Trutona. It will surely help them."

Trutona is now being introduced and explained in Somerville at Price Drug Co. The J. S. DuBois, Son & Co., wholesale distributors in this section. (Adv)

## Order of Publication

E. V. Hall as Guardian and next friend of N. B. Hall vs Louise E. Hall. In the Circuit Court of Fayette County, Tennessee.

In this cause it appearing from the petition which is sworn to, that the defendant, Louise E. Hall is a non-resident of the state of Tennessee and is a resident of the state of Florida, it is therefore ordered that she be hereby notified and required to appear in and before the Circuit Court of Fayette County, Tennessee, at a term thereof to be held at the courthouse in the town of Somerville, Tennessee, on the fourth Monday in July, 1919, and make defense to a petition filed in said court against her by E. V. Hall as guardian and next friend of N. B. Hall, otherwise the said petition will be taken for confessed as to her and set for hearing ex parte. It is further ordered that this notice be published for four consecutive weeks in The Fayette Falcon, a newspaper published in Somerville, Tennessee.

This 24th day of June, 1919.

S. A. WETZLER, Clerk.

H. P. HOBSON, Solicitor.

## THE AMERICAN LEGION

### Objects and Aims of This Great Organization

The American Legion is the organization of American veterans of the World War. It is a civilian organization, non-political, non-military and non-partisan. It makes no distinction of rank and no distinction between men who served overseas and those who did not get across. Any soldier, sailor or marine who served between April 6, 1917 and Nov. 11, 1918, and was honorably discharged, is eligible for membership.

Among the objects of the Legion are: To uphold and defend the Constitution of the United States of America; to maintain law and order; to foster and perpetuate a 100 per cent Americanism; to preserve the memories and incidents of our association in the Great War; to inculcate a sense of individual obligations to the community, state and nation; to promote peace and good will on earth.

Local posts are being organized throughout Tennessee with a minimum of 15 members. Application blanks for charter and all necessary information can be secured by writing to William J. Bacon, State Secretary, Goodbar Building, Memphis, Tenn.

## To Judge Clark, Brady Scott and Margaret Parham

Henderson B. Scott vs. W. L. Jewell, Extr. et al. In the County Court at Somerville, Tenn.

In this cause, it appearing from the petition which is sworn to, that Judge Clark, Brady Scott and Margaret Parham, defendants herein, are non-residents of the State of Tennessee, they and each of them are hereby required to appear before the County Court at the Courthouse in the Town of Somerville, Tennessee, and make defense to the petition filed against them and others in this cause, on or before, the 1st Monday in August, 1919, or otherwise the petition will be taken for confessed as to them and this cause set for hearing ex parte.

It is further ordered that this notice be published for four consecutive weeks in The Fayette Falcon at Somerville, Tennessee.

This 24th day of June, 1919.

C. W. CHAMFORD, Clerk.

H. C. MOORMAN & SON, Sols. 7-11

## Loss of Appetite

As a general rule there is nothing serious about a loss of appetite, and if you skip a meal or only eat two meals a day for a few days you will soon have a relish for your meals when meal time comes. Bear in mind that at least five hours should elapse between meals so as to give the food ample time to digest and the stomach a period of rest before a second meal is taken. Then if you eat more than you crave and take a reasonable amount of outdoor exercise every day you will not need to worry about your appetite. When the loss of appetite is caused by constipation as is often the case, that should be corrected at once. A dose of Chamberlain's Tablets will do it. adv.

## Grove's Tasteless Chill Tonic

restores vitality and energy by purifying and enriching the blood. You can soon feel its strengthening, invigorating effect. Price 50c.

YOU know that tropic-thin Summer Clothes are in style, but you don't know how much style is in Summer Clothes until you wear

## Keep-Kool

The National Summer Suit for Men

"KEEP-KOOL" is our trademark; it is not a general trade term.

Every "KEEP-KOOL" Suit has the label sewn under the collar.
